Sir

Subject: Estimate for the year 1944-45 relating to the several water supply works of the Bureau of Sanitary Engineering

---

I have the honour to state that information was called for from the Sanitary Engineer enquiring whether the annual maintenance estimates for 1944-45 relating to several water supply works had been forwarded to the local bodies concerned and if so to mention the dates on which they were forwarded. The statement received from the Sanitary Engineer (vide copy enclosed) showed that the estimates were sent either in the end of June or beginning of July 1944. He was enquired from the Sanitary Engineer why the Annual Maintenance Estimates were not sent in April 1944 to the local bodies concerned as required under Government Order No L 9090-3102/Ml 130-42-170 dated 9th March 1943. In his reply No 289 dated 13th September 1944 the Sanitary Engineer intimates that the Annual Maintenance Estimates were received from the Sub Divisions in April and May 1944 and that as the estimates required scrutiny, it took time and hence the estimates were sent to the respective Presidents during June and July, 1944. A copy of his letter is enclosed herewith for the information of Government.

I have the honour to be,

Sir,

Your most obedient servant

Director of Public Health.

Mar 26/9 This is an unsatisfactory state of affairs. Three months in the year and more and more reasons why these A.D. estimates should be still pending, especially when the Budget estimates of the D.Ts have remained unchanged for two months either by not being sent or D.C. As a rule these estimates should be first approved

I have the honour to state that the Sanitary Engineer reports in his letter No 126 dated 2 8 44 that the Annual Maintenance estimates for the current year sent to the Local bodies for countersignature have not been returned with the exception of two viz A M estimates of Closepet and Shikarpur Water Works As under the circumstances the expenditure against the estimates is inevitable before sanction to estimates is accorded I request you to be so good as to admit the outlay incurred against the A M Estimates in anticipation of sanction
